Grid Reference: 242826 799739 Distance to nearest turbine: 9434m AOD: 879m

This viewpoint is located approximately 10.5km southeast of Fort Augustus.

Travelling north on the A86 towards Laggan, turn left at Laggan opposite the small cemetery, following the signs for Gergask and Garva. Drive to the end of the public road (General Wade's Military road) heading up the glen of the upper Spey; the road extends further than shown on 1:50k maps and reaches a bridge beside a ford just short of Melgarve. Park here.

On foot, cross the bridge and continue along the track. This soon leads to a General Wade bridge and the Melgarve bothy.

From this point on it is strongly recommended that the user sources designated mapping for this walk. There are several websites detailing walks to the summit of Corrieyairack Hill.

The camera location is at the summit on the stone cairn.

Extent of 50mm single frame

Figure 4.10i
Viewpoint 3
Corrieyairack Hill

Distance to nearest turbine: 5201m Camera: Nikon D750 Focal Length: 50mm vertical (27°) x 28mm horizontal (65.5°) Camera height: 1.5m Date: 19/09/2017 15:40

The images contained on this page and the following page are not representative of scale and distance from the actual viewpoint and show the wind farm development in its wider landscape context only.

For empirical testing, the wireline image on the next page can be accurately assessed in the field when converted to a transparency. If viewed with one eye at a distance of 300mm from exactly the same location and height as the original camera lens, the image will fit the real landscape cues.

Extent of 50mm single frame

Photomontage showing proposed development and consented Stronelairg development
