

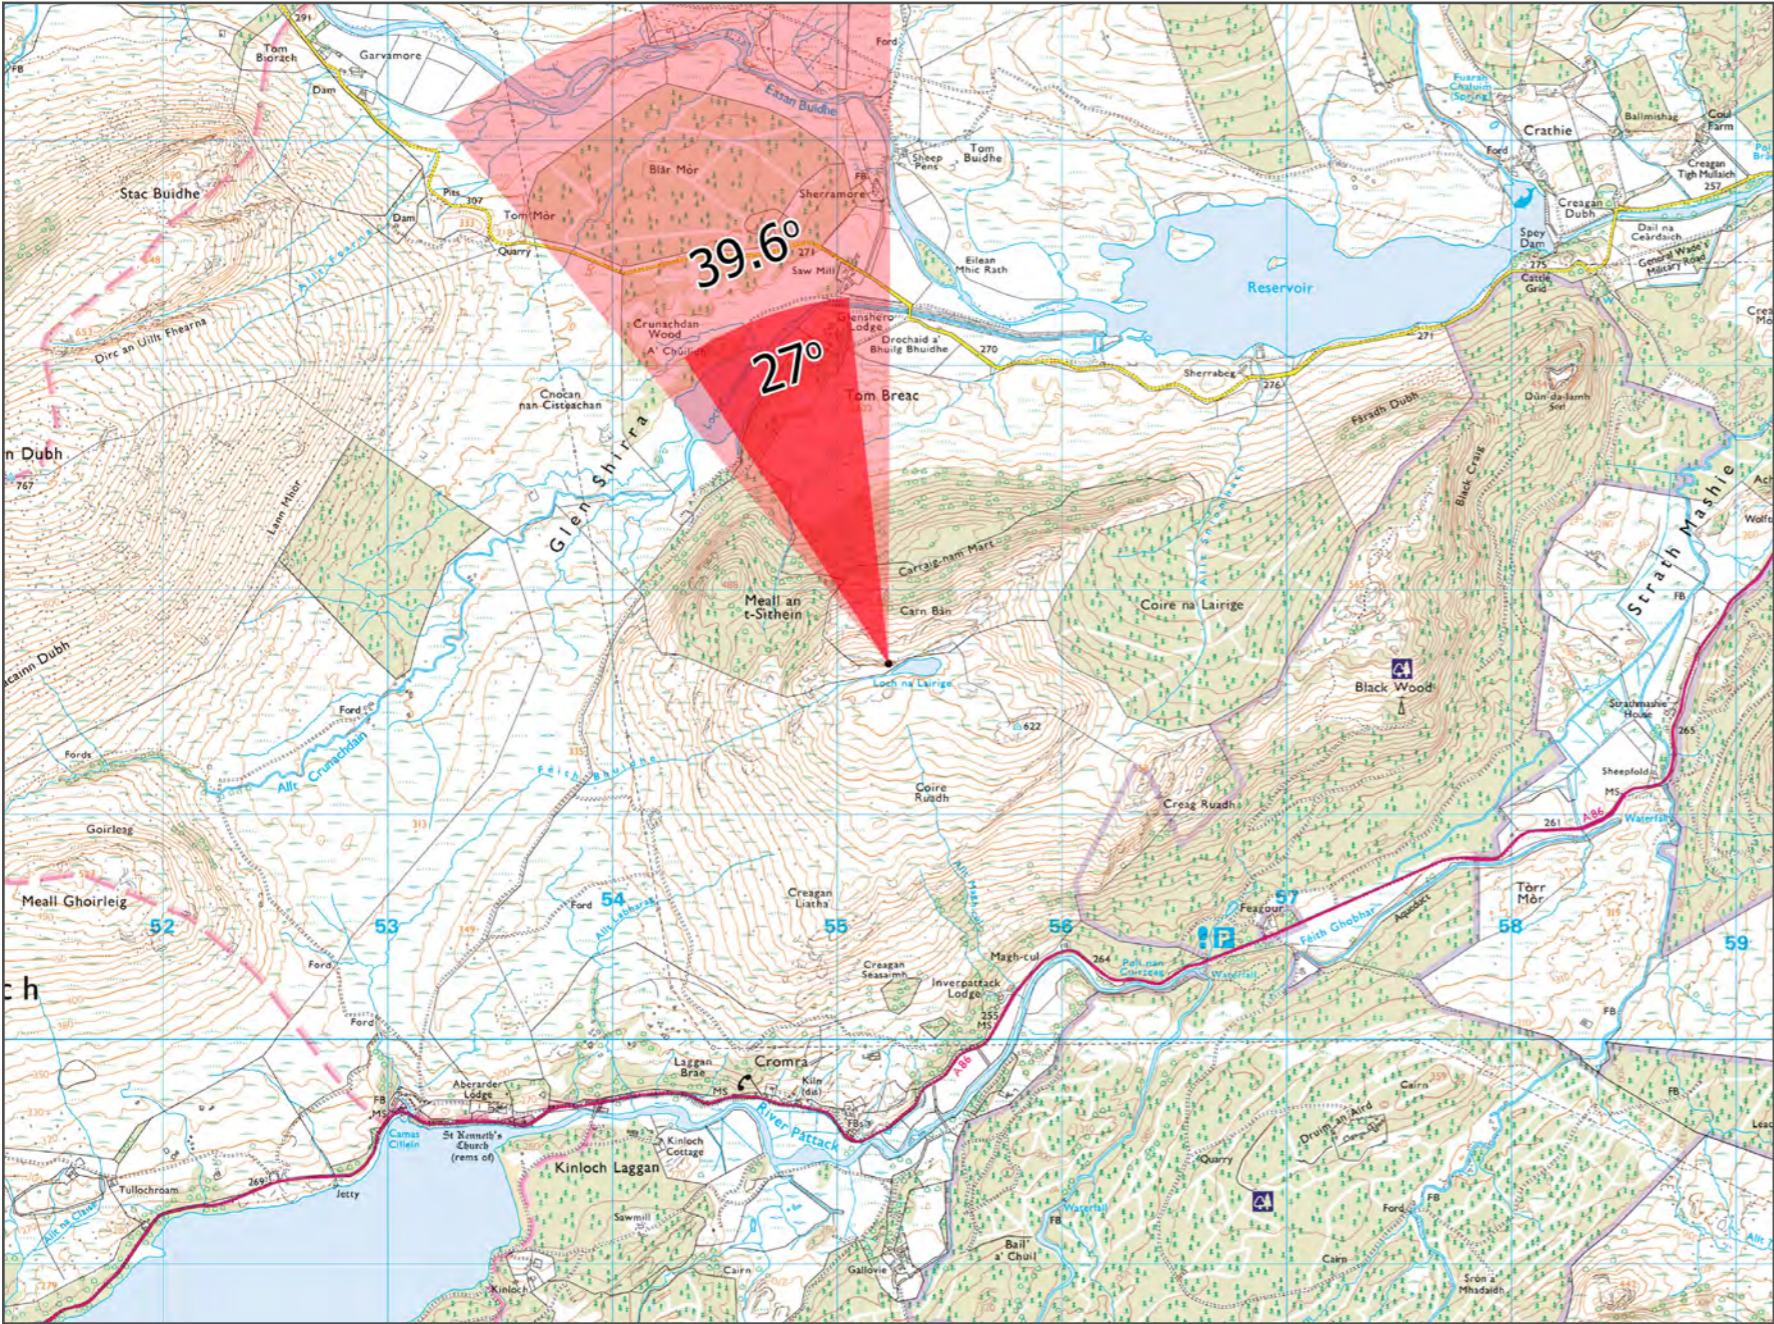

Figure 4.23f - Viewpoint 16: Loch na Lairige.

Grid Reference: 255231 791670      Distance to nearest turbine: 8769m      AOD: 596m

This viewpoint is located approximately 6.8km southwest of Laggan.

Heading south on the A86 from Laggan you will reach the shores of Loch Laggan on your left. Pass the large layby on your left

The road starts to bend sharp right and as it does, look out for the track entrance on your right. Turn right into here and park immediately on the left (you could park in the layby on the A86 but there is no walkway alongside the road on which to walk safely to the track entrance).

Now on foot, walk up the main track keeping on it as it bends sharply up to the left. At the fork in the track, keep right.

From this point on it is strongly recommended that the user sources designated mapping for this walk as the route crosses over open and rough ground.

The camera location is just to the north of Loch na Lairige next to a portion of metal fencing.

Extent of 50mm single frame

**Loch na Lairige**

Distance to nearest turbine: 6859m      Camera: Nikon D750    Focal Length: 50mm vertical (27°) x 28mm horizontal (65.5°)    Camera height: 1.5m    Date: 28/05/2018 15:00

The images contained on this page and the following page are not representative of scale and distance from the actual viewpoint and show the wind farm development in its wider landscape context only.

For empirical testing, the wireline image on the next page can be accurately assessed in the field when converted to a transparency. If viewed with one eye at a distance of 300mm from exactly the same location and height as the original camera lens, the image will fit the real landscape cues.
