This viewpoint is located approximately 16km west of Laggan.

Travelling north on the A86 towards Laggan, turn left at Laggan opposite the small cemetery, following the signs for Gergask and Garva. Drive to the end of the public road (General Wade's Military road) heading up the glen of the upper Spey; the road extends further than shown on 1:50k maps and reaches a bridge beside a ford just short of Melgarve. Park here.

Now on foot, continue along the military road until you come to a line of 'shelter-belt' trees on your left.

The camera location is approximately 200m further along the road past these trees, just beyond the stone step.

The images contained on this page and the following page are not representative of scale and distance from the actual viewpoint and show the wind farm development in its wider landscape context only.

For empirical testing, the wireline image on the next page can be accurately assessed in the field when converted to a transparency. If viewed with one eye at a distance of 300mm from exactly the same location and height as the original camera lens, the image will fit the real landscape cues.
